## SECRETARY OF THE NAVY DENBY MAKES REPRIMAND PUBLIC

While the Secretary Was Doing This Admiral Sims Was Chatting With President Harding—Second Reprimand Officer Has Received—Says He Got What He Deserved

WASHINGTON, June 24.—Secretary Denby today "publicly" reprimanded Rear-Admiral William S. Sims as a result of the speech the admiral made in London June 7, in which he criticized Sinn Fein sympathizers in America. Mr. Denby pointed out that once before the navy department had found it necessary to take similar action against the officer for an address delivered in London in 1911 and referring to the text of that reprimand added: "Your remarks on the occasion now under discussion therefore constitute a flagrant and deliberate disregard of specific instructions."

## TIM D. MURPHY IS INDICTED FOR MAIL ROBBERY

Nine Others are Also Named With Him in the Robbery

(By The Associated Press)  
CHICAGO, June 24.—Timothy D. (Big Tim) Murphy and nine others were named in two indictments returned by the federal grand jury before Judge K. M. Landis late this afternoon according to John E. Northrup, official assistant attorney. The indictments charge theft, conspiracy and robbery in connection with the recent \$350,000 Dearborn Station mail robbery. Edward Gierun, whose confession is said to have led to Murphy's arrest and the discovery of the loot, Vincenzo Cosmano, Murphy's lieutenant, Peter Guesenberg, Paul Volanti, Ralph Teter, George Hecker (alias Bradford) and three others were named. The first indictment contained six counts according to Mr. Northrup. Three charged theft, two conspiracy and the third, robbery. The other indictments charged conspiracy and robbery, one count each. The three unnamed men have not been arrested and their names were withheld.

## BALTIMORE MAN ELECTED HEAD OF KIWANIS CLUBS

Fifth Annual Convention Closes at Cleveland Saturday

(By The Associated Press)  
CLEVELAND, O., June 24.—The fifth annual convention of the Kiwanis clubs closed today with the election of Harry E. Karr of Baltimore as international president and the selection of Toronto, Canada, as the convention city for next year. Other officers elected include three vice-presidents and four trustees. In outlining his policies, Mr. Karr said he conceived a future for Kiwanis as a truly representative organization of business men. He said while he was interested in extending the international scope of the organization he was principally interested in upholding the dignity of Kiwanis and increasing its leadership in constructive civic affairs. Senator Watson Talks. Senator James E. Watson of Indiana in addressing the delegates denounced radicalism and government ownership. "I regret to see the American Federation of Labor has gone on record in favor of the government ownership of railroads," Senator Watson said. "The Federation's action is a serious blunder. If carried to its logical conclusion it would suggest a revolution in American government." The Muskogee club won first prize in the national efficiency contest. Scranton, Pa., second and Saginaw, Mich., third.

## MRS. ORTHWEIN IS FOUND NOT GUILTY BY JURY

Verdict Returned After Less Than Hour of Deliberation

(By The Associated Press)  
CHICAGO, June 24.—Mrs. Cora Isabelle Orthwein was found not guilty by a jury tonight at her trial on a charge of having murdered Herbert P. Zeigler. The jury reached its verdict after less than an hour's deliberation. Mrs. Orthwein, when she heard it, thanked the judge and jurors and then fell back in her seat, apparently in a fainting condition. Later she was taken to the home of her sister, Mrs. Bertha Clifford. The verdict followed the re-enacting in the court room of the tragedy which took place in Mrs. Orthwein's apartment on the night of March 1. George Gunter, attorney for the defense, donned the bullet pierced overcoat of the dead man to show how he met his death while attacking Mrs. Orthwein after having battered his way thru two doors to reach her bedroom. "This woman fired in defense of her life," he declared. Previously Lloyd Heth, assistant state's attorney, had asked that she be sent to prison. He pictured her as a revengeful woman who murdered in cold blood because of the jealousy which she had testified pierced her heart like a dagger. "It's the same old story. You can't convict a good looking woman of murder in Cook county," said Prosecutor Heth after the verdict had been read. Mrs. Orthwein was the twenty-eighth woman acquitted at trials on charges of murder in Cook county in the past ten years. During that period only three women have been convicted.

## OFFICIAL ORGAN MAKES STATEMENT

(By The Associated Press)  
DUBLIN, June 24.—Tonight's issue of the Daily Eireann's official organ, the Irish Bulletin, says: "At the opening of the imperial conference the mind of the British cabinet is still bent on war but the cabinet is not immortal and the British commonwealth contains five free nations whose honor is involved in a war they have not authorized and for which they nevertheless cannot escape the responsibilities. If the issue were clear and the historical sequence of events of the past century understood can hardly be doubted that they would endeavor to bring about peace on the only terms of peace possible." The Bulletin then narrates the events of the last five years including the establishment of the Irish Republic.

## ALAND ISLANDS ARE AWARDED TO FINLAND

(By The Associated Press)  
GENEVA, June 24.—The council of the league of nations today awarded the Aland Islands in the Baltic sea to Finland. The council declared that the islands should be neutralized from the military standpoint and the population given the guarantees recommended in the report of the commission of which Abram I. Elkus of the United States was a member. Hjalmar Branting of Sweden protested against the decision but agreed to recognize it.

## SAMUEL GOMPERS AND LEWIS BOTH SEEM CONFIDENT

Hot Political Fight Ends on Eve of A. F. of L. Election

(By The Associated Press)  
DENVER, Colo., June 24.—Both candidates—John L. Lewis and Samuel Gompers—were equally confident tonight that they would win the presidency of the American Federation of Labor tomorrow. Their supporters were wending up one of the hottest political campaigns ever waged in the history of organized labor. Electioneering took place on the floor of the convention today and proceedings were interrupted by caucusing and gathering of delegates. Protests were made to President Gompers that steps be taken to keep order. Once President Gompers warned organizers to keep off the convention floor and not attempt to do any electioneering in connection with the election of officers.

The Lewis supporters claimed they had made gains and sufficient votes to elect the mine workers' chief by several thousand majority, while the Gompers boomers asserted he would win easily. A split in the ranks of the miners' delegation threatened to deprive Lewis of 1596 votes as it was announced tonight by Frank Farrington, president of the Illinois District that neither he nor Alexander Howat of the Kansas district, nor Robert Harlan of the Washington district, would vote for Lewis.

Farrington made public the following telegram sent to John Hessler, president of the Indiana district mine workers in answer to an appeal that he cast his vote for Lewis: "If you believe that Lewis is fitted for the position of president of the federation, it appears to us you should want him to stay with the mine workers during this crisis when our organization needs capable leadership more than it ever did in its history. If you do not think Lewis is fitted for this high position you should not ask us to vote for him." The telegram also carried the signatures of Howat and Harlan.

## AMERICAN LABOR REPUDIATES THE INTERNATIONAL

Action of Executive Council Sustained by Overwhelming Vote

(By The Associated Press)  
DENVER, Colo., June 24.—The action of the executive council in repudiating and severing relations with the International Federation of Trades Unions was sustained tonight by an overwhelming vote of the annual convention of the American Federation of Labor. Proposals made by the International Association of Machinists and Firemen and Oilers Union that the executive council and President Gompers be immediately instructed to reaffiliate with the American labor movement with the European organizations were almost unanimously defeated.

Amid confusion and turmoil the convention adopted a report condemning the Russian soviet government as "an enemy of labor" and with "destroying the self-government of the Russian people and imposing a vicious tyranny." Opponents of the committee's action attempted to prevent the matter from going to a vote and hurled cries of "machine rule" at President Gompers when they failed.

The Federation also voted down a constitutional amendment designed to give women equal rights and privileges of membership in the union of their trade or industry. All affiliated unions were urged not to discriminate against the woman wage earner but admit her to membership. Efforts to wipe out the "color line" in organized labor organizations also failed.

The convention took the stand that national and international unions could not be compelled to recognize negro workers, and that this was a matter to be adjusted by conference. Both questions were the subjects of long and stormy debates in which discrimination by certain unions against the negro and women wage earners was bitterly denounced. The committee's report to give women industrial equality, defended the federation's stand on women's industry and cited efforts to get better wages and working conditions for them.

Equal rights for women in industry was voted by delegates from the Cigar makers and the Laundry Workers' Unions, who declared, "If a woman does a man's work she should receive a man's pay." All declared that organized labor should protect women wage earners. W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees, declared his organization would not allow the federation to dictate to it in the matter of woman's labor. He said he was in favor of protection for women workers but he did not believe that the "back platform of a street car was the place of a woman."

## HEADS NURSERYMEN

## SECRETARY WEEKS URGES MORE CARE IN AIR SERVICE

Writes to Chief of Service Asking More Precaution

(By The Associated Press)  
WASHINGTON, June 24.—Aroused by the recurring fatal accidents in the army air service, Secretary Weeks has written to Major General Menoher, chief of that service asking that every precaution be taken to prevent accidents. "There have been too many accidents to suit me," said Mr. Weeks. "I have written General Menoher saying that the greatest care should be used to prevent accidents if possible." Four accidents with a loss of 18 lives have occurred in the army air service in the last few weeks and the war secretary said he had requested that the careful inspection of airplanes and their accessories prior to each flight and at all other times. An analysis of casualties in the army air service for the last year, it is said, shows that the fatalities among the army fliers total eight per cent of that class. Army officers said the aviation service was still in the experimental stage and that while every precaution possible was taken against accidents it was humanly impossible to prevent all of them.

## EUROPEAN BAPTISTS PRESENTED AT MEETING

Northern Baptists Association Meeting Featured by This and 107th Annual Meeting of Missionary Society.

(By The Associated Press)  
Des Moines, June 24.—The 107th annual meeting of the Baptist Missionary Society the presentation of European Baptists and the report of the general board of promotion on the year's progress of the new world movement of the Northern Baptists were features of today's sessions. The report of the committee which had investigated Baptist schools and colleges was adopted without comment. At tonight's meeting the Rev. R. N. Sheppard of Los Angeles in charge of the work among Chinese in America denounced gambling and traffic in girl slaves which, he declared, was openly carried on.

The Rev. S. D. Bowden of Kaval, Madras, resident manager of the British Indian reservation where hereditary criminals are taught useful trades, told the delegates of the work being done in that country. Prof. L. Anderson president of the board of managers of the American Baptist Missionary said 880 Baptist missionaries are now in the Far East and Africa and that 216 appointments have been made in two years. New territory has been opened in British India and western China.

## SPANISH-AMERICAN VETERAN CLEARED

(By The Associated Press)  
SAN FRANCISCO, Cal., June 24.—A federal indictment charging Major John B. Jeffery, Spanish war veteran and holder of the congressional medal of honor with using the mails to defraud in connection with activities of the National Defense League during the world war, was dismissed today in district court. The jury was unable to agree and the court said the indictment should be dropped since the government did not intend to try the case again. Jeffery won his distinction in the Philippines for notable services. He was formerly a newspaper executive in Chicago and other midwestern cities.

## CHARLES B. WARREN NAMED BY HARDING AS JAP AMBASSADOR

Michigan Man Has Been Selected for Position by President Harding—Name Goes to the Senate Today—Has Many Important Diplomatic Problems to Settle on Arrival

WASHINGTON, June 24.—Charles B. Warren of Michigan, a lawyer and business man, who for a number of years has been a prominent figure in Republican National politics has been chosen by President Harding as ambassador to Japan. Announcement of the selection was made at the white house today upon receipt of the customary assurances that Mr. Warren's appointment would be acceptable to the Japanese government. His nomination reached the senate too late to be received formally at today's session. It will be sent in again Monday. Altho Mr. Warren has been closely associated with the Harding administration his selection as ambassador was a surprise to most of official Washington. Some of his closest friends had understood that he preferred not to enter public service. Since Mr. Harding became president Mr. Warren had conferred several times with him. On Saturday he is understood to have talked over finally the subject of the Tokio appointment. He now is in New York and will sail shortly for a month's visit to the old world. It is understood here that he expects to leave this country for Japan about August 1. Important Tasks Ahead. Upon arrival at Tokio the new ambassador will find several important diplomatic tasks awaiting his attention. Administration officials had indicated that they regarded the post as one of the most important in the diplomatic service. It generally is expected that the remainder of the diplomatic slate will soon be completed. Besides the question of the California anti-alien land laws the subjects which now are pending between Washington and Tokio include such factors as Japanese control of Shantung, Japanese occupation of the northern half of the Island of Saghalien and disposition of Yap. Mr. Warren was born of Bay City, Mich., 51 years ago and was graduated from the University of Michigan in 1891. In 1896 Mr. Warren was associate counsel for the United States before the joint high commission to determine the Heilung Sea claims and in 1910 he was counsel for the United States in the North Atlantic coast fisheries arbitration with Great Britain before the Hague tribunal. During the war Mr. Warren served on the staff of the judge advocate general in Washington with the rank of Lieutenant Colonel and was awarded a distinguished service medal. Until recently he had been a member of the Republican national committee and executive committee since 1912.

## SOCIALISTS OPEN THEIR NATIONAL CONVENTION

Are Opposed to Affiliation With Soviet Russia

(By The Associated Press)  
DETROIT, Mich., June 24.—The retiring Socialist national convention which opens tomorrow. Forty-six delegates representing 26 states, five foreign language federations and the Young Peoples' Socialist league, has registered. New York six including Morris Hillquit, Samuel Orr and Charles Solomon, Wisconsin, four including Victor Berger and Mayor Daniel W. Hoan, of Milwaukee; Illinois, Massachusetts and Pennsylvania three each and Ohio two. Relations between the Socialist party and the Russian Bolshevik government is holding the center of attention. A check of the delegates according to the party leaders show the majority opposed to the communists demand for affiliation with the government. The reply of the members on other questions were also received.

## DAILEY COMMITTEE TAKES POSSESSION OF THEATER BOOKS

Seize Books of Three of Largest Picture Houses in Chicago

(By The Associated Press)  
CHICAGO, June 24.—The Dailey joint legislative committee investigating alleged graft in the building industry today took possession of the books of the three largest motion picture operating concerns in the city after the committee had been informed that Thomas Kearney, president of the Chicago Building Trades Council owned a block of stock in one. The committee had been informed, Joseph B. Fleming, its special counsel said, that Balaban and Katz had given Kearney a block of stock as "insurance" against the troubles in connection with operation of their theatres. The other concerns whose books were seized are Ascher Brothers and Lubliner & Trinz.

Figures have just been made  
public to show that the value of  
farms increased 94.8 per cent in  
the ten year period ending Jan. 1,  
1920. The interest in these fig-  
ures would have been materially  
increased if the 10 year period end-  
ing January 1, 1921, had been  
chosen by the statisticians.

The Chicago Woman's club feels  
that its organization should be  
credited with defeating the  
Wheeler bill which provided for

the abolition of civil service in  
two of the state departments. If  
the bill had passed the club would  
probably not have taken the re-  
sponsibility for its failure to block  
the legislation.

## THE SIGNS OF

## RETURNING BUSINESS

Akron, Ohio, has in past months  
been frequently referred to as  
furnishing a typical example of  
business depression, especially in  
the field of manufacturing. So the  
dispatch that 1500 additional men  
had just been put to work by one  
of the tire factories there may be  
taken as satisfying proof that the  
days of business activity are  
steadily approaching.

Then there is that other fact  
that the Ford auto factory had  
the most satisfactory business in  
May of any month in the history  
of the big corporation.

## HOME CONDITIONS

## THE MOST IMPORTANT

Banker Reynolds of Chicago in  
conference with other bankers and  
the president in Washington  
sharply disagreed with the eastern  
bankers about the methods  
necessary for improving the U. S.  
business conditions. Judging  
from the statements made the  
eastern bankers in their program  
for aiding foreign trade have been  
influenced to some extent by per-  
sonal interests.

Mr. Reynolds points again to  
the significant fact that the great-  
est business interest of America  
is here at home, since 93 per cent  
of the business is done here at  
home and only 7 per cent abroad.

## THE SLOW WHEELS

## OF JUSTICE

Sergeant Hill of Oregon was  
awarded the Croix de Guerre in  
France. Then he was given a con-  
gressional medal and has other in-  
signia of distinguished service.

Yet the government department  
recently ruled that the evidence  
was not sufficient in the applica-  
tion he made for a pension. It is  
no wonder that ex-service men  
and their friends are frequently  
exasperated by the red tape meth-  
ods of government which so often  
prevent the giving of relief until  
too late to accomplish the intend-  
ed purpose.

## THE FINAL

## HOUR POLLY

The folly of final hour legisla-  
tion is again proven. Governor  
Small has hundreds of bills still  
to consider before the assembly  
convenes on June 30. It is not hu-  
manly possible for the governor  
to give careful attention to these  
bills in the time remaining and so  
many of them will die.

The condition is not the fault  
of the governor and he indicates  
the right kind of discretion in his  
statement that he proposes to sign  
no bills without having had the  
opportunity for carefully scruti-  
nizing them.

## SELF-INDULGENCE

## AND THE LAW

Bishop Brent in the World's  
Work for July:  
The Eighteenth Amendment is

just as much a part of the Consti-  
tution as any of the original ar-  
ticles. I am not concerned with  
the character of this amendment.  
I am viewing it solely as an inter-  
nal part of the most sacred and  
binding obligation governing  
American citizenship. The only  
possible excuse for disobeying it  
is self-indulgence. Unless my  
reasoning is wholly wrong, the man  
who disregards it is as disloyal a  
citizen as if he were a slave own-  
er, and he is sowing the seeds of  
revolution. He is putting himself  
in a position in which he has no  
right to condemn or proceed  
against those who may be plotting  
against other portions of the Con-  
stitution. The more entrenched  
such criminals are by privilege  
and position, the deeper their  
guilt and the more provocative of  
danger to the commonwealth.

## ITALY AT WORK

There were 1,193 corporations  
newly organized in Italy in 1920,  
with a capital stock aggregating  
1,654,384,000 lire (about \$330,-  
000,000), and 767 corporations  
increased their capital stock by an  
aggregate of about \$84,000,000  
for the same year. On the other  
hand, 190 corporations whose cap-  
ital aggregated \$27,500,000, dis-  
solved, and decreases in capitaliza-  
tion of 55 corporations amounted  
to \$21,000,000. This leaves a  
net increase in capitalization for  
the year of about \$976,000,000,  
53 per cent of the increase being  
recorded during the first six  
months of the year. We do not  
hear such a great deal of walling  
from Italy about securing Ameri-  
can funds. The Italians are get-  
ting down to cases and Italy ap-  
pears to be coming thru.

## THE YOUTH

## OF LONG AGO

As we contemplate the degener-  
acy of the youth of today, espe-  
cially their irresponsibility, we  
should take heart and read Mon-  
taigne, the Frenchman who has  
often been called the "wisest man  
of France." Three hundred and  
fifty years ago he wrote an essay  
in which he referred to the corrup-  
tion of the age, complaining of  
its influence on the rising genera-  
tion. He was sure that the children  
of the period were doomed to the  
bowwows and he expressed his  
appreciation to the Almighty that  
he had been spared the responsibility  
of rearing children. He was known  
as one of the kindest men who loved  
children, and his essay, however,  
does not go into details and we are  
left to speculate on what the calam-  
itous conditions were which  
aroused his fears. Wonder if they  
were cigarettes, short skirts,  
rolled down stockings, open work  
hosiery, low necks and jazz.—

## HORSES TO BE SHOT

When General Sherman was  
"marching through Georgia"—on  
December 16, 1864, to be exact—  
he wrote to General Grant: "I  
have no doubt that the state of  
Georgia has lost by our operations  
15,000 first-rate mules. Great  
numbers of horses were shot by  
my orders." (Official Rebellion  
Records, Series 1, Vol. 44, pp.  
726-7). We can read that note  
without a quiver, for that was war  
and it was long ago. But few of  
us can read unmoved of the British  
proposition to put to death 30,000  
horses in Mesopotamia, and we can  
well understand that the proposi-  
tion causes much agitation in En-  
gland, where the horse is perhaps  
more generally an object of in-  
terest and affection than in Amer-  
ica. The automobile has not dis-  
placed the horse in England, and  
racing, riding to hounds, polo and  
steepchasing are sports still pur-  
sued with undiminished enthusi-  
asm.

A people who love horses can  
not calmly contemplate the cold-  
blooded slaughter of 30,000 of  
them, and the announcement made  
by Mr. Churchill for the British  
government came as a very dis-  
agreeable shock. It appears that  
such slaughter is the most econom-  
ical and perhaps the most humane  
disposition possible of horses no  
longer needed by their British mas-  
ters in a far land. Mr. Churchill  
explained that the military estab-  
lishment in Mesopotamia had re-  
quired formerly no less than 47,-  
000 horses, but, as reorganized  
under present conditions, would  
need only 17,000. The great sur-  
plus could not be sold on the  
ground, and to give them gratis  
to the natives would sentence them  
to a hard life of abuse in a country  
where there was not much real  
use for them other than military.  
To bring them to England or to  
any part of Europe where they—  
mostly heavy draft horses—could  
be profitably sold and could be  
used would involve a freight and  
attendance expense far beyond  
what could be realized from auc-  
tions or even from private sales.  
Still, staggering under heavy  
war burdens and embarrassed by  
the costs of many other troubles  
since the great conflict, the British  
people are anxious to save  
money and to cut down govern-  
ment expenditures in every way  
possible. This explains why it is  
seriously proposed to save a few  
thousand pounds in so unwelcome  
a way. Relatively England is  
very poor as well as burdened  
with debt, but even so, it is dif-  
ficult to believe that a scheme so  
abhorrent to the instincts of the  
English people will be put thru.  
Granting that the expense of  
bringing the horses to Europe  
would be too great, and that the  
natives of the immediate region  
can not be trusted to take proper  
care of them, it has been suggest-  
ed that the otherwise doomed ani-  
mals be given to the neighboring  
Arabs who are known to love  
horses and presumably would  
treat them well. That some such  
adjustment will be demanded and  
will be made may be regarded as  
reasonably probable.

HAVE BUILT FINE  
GASOLINE LAUNCH

Is Equipped With Chevy 19  
Horse Power Engine—Will be  
Placed on Mauvaisterre Lake  
Soon.

Lee and Joe Wolke have almost  
completed a large gasoline launch  
which they expect to launch on  
Mauvaisterre lake within the next  
few days. The craft is regulation  
size being built along the same  
lines as boats used on the Great  
Lakes and on the ocean.

It is equipped with a Chevrolet  
19 horse power motor and has an  
electric lighting system. The  
body is painted grey and the in-  
side is finished in brown. The  
boat will carry six passengers and  
the pilot.

The Wolke brothers have done  
all the work on the launch, them-  
selves and can justly be proud of  
the pretty little craft. They plan  
to name her "The Frances Lee"  
and will probably fully christen  
her when the boat is launched. It  
is planned to take the boat out on  
a large truck and launch it on  
Lake Mauvaisterre within the next  
few days.

Reprimanded Before

the propriety which forbids a  
government servant of your posi-

shown by the fact that a public  
reprimand was administered to

lowing statement in a public  
speech in London:

"If the time ever comes when  
the British Empire is seriously  
menaced by an external enemy,  
it is my opinion that you may  
count upon every man, every sol-  
dier, every drop of blood of your  
kindred across the sea."

"In the reprimand above men-  
tioned the duties and responsi-  
bilities of officers of the navy  
who speak in public were clearly  
and fully set forth. Your re-  
marks on the occasion now under  
discussion therefore constitute a  
flagrant and deliberate disregard  
of specific instructions.

"The department is not un-  
mindful of your record and  
achievements as an officer of the  
navy, but the conspicuous posi-  
tion you now hold, coupled with  
the fact that you have previously  
offended in a similar manner,  
merely serves to add to the grav-  
ity of the present offense. The  
department deprecates the fact  
that it is necessary to rebuke a  
flag officer in public but you  
have made such action unavoid-  
able.

"The department expresses its  
strong and unqualified disappr-  
oval delivered a highly improv-  
per speech in a foreign country  
and you are hereby reprimanded.  
Attached was a copy of Sec-  
retary Denby's order and Com-  
mander Land, assistant attache  
in London. This is the text quoted  
in Secretary Denby's reprimand:

Shows Difference In Text  
"This copy of the speech will  
show in what respects I was in-  
correctly quoted in America,"  
says the admiral's reply.

"The essential in-correctness  
of the reports that were made on  
this side is contained in the fol-  
lowing paragraph from your let-  
ter (referring to Secretary Den-  
by's letter) quoting the accounts  
of the speech printed in Ameri-  
can newspapers:

"We have a class of people  
on the other side who are tech-  
nically Americans, some of them  
born there, some naturalized.  
They are at war against America  
today and at war against you.  
The simple truth is they have the  
blood of American and Eng-  
lish boys on their heads."

"In no part of my speech did  
I make any such statements as  
that just quoted above.

My reference was to the Sinn  
Fein faction of the Irish people  
and to the Sinn Fein; in Amer-  
ica who assisted to fight us dur-  
ing the war. The above will  
show the essential difference be-  
tween the two statements.

HILLVIEW BOY IS  
ACCIDENTALLY SHOT

Thirteen Year Old Boy Receives  
Gunshot Wound While Watch-  
ing Two Brothers Fight—Is at  
Passavant Hospital.

Stephen Willis, aged 13, of  
Hillview, is at Passavant hospital  
in a very serious condition, suf-  
fering from a bullet wound in the  
hip. The boy was brought to  
Jacksonville about midnight  
Thursday, accompanied by his  
father who returned home Friday.

According to information com-  
ing to the Journal from Hillview  
Friday night, Willis was wounded  
accidentally while witnessing a  
fight which occurred outside the  
town Thursday night. The shot  
was inflicted by Jesse Dale dur-  
ing a quarrel with his brother,  
John Dale. Both are married  
men residing near Hillview.  
Neither of them was hurt during  
the engagement, which was said  
to have been caused by jealousy.  
No arrests have been made to  
date.

The condition of the injured  
boy could not be learned Friday  
night.

## INSANE MAN CAUSED

## WRECK ON ALTON

Andrew Brennan, who escaped  
from Jacksonville State hospital  
last April, is credited with having  
caused the wreck on the Chicago  
& Alton road May 13, near Shire-  
ley. Brennan was captured at  
Centralia some time since and is  
again a patient at the hospital.

The man has some sort of in-  
vention which he tried without  
success to sell to the Chicago &  
Alton, and he also sought a po-  
sition with the road. He was seen  
in Bloomington several days prior  
to the wreck and disappeared the  
night the Hummer was ditched.  
Subsequent statements on his part  
regarding the wreck lead to his  
apprehension. Because of Bren-  
nan's mental condition he will  
not be prosecuted on the charge.

## "Her Lord and Master"

No two persons will agree all the time. No wife will submit to  
her husband's commands indefinitely, even though she married  
him because she believed he would rule her with an iron hand.  
The story is told of an Italian girl, whose parents so humored  
her whims that the child was ashamed of herself and resolved  
to marry a man who would become her lord and master.  
Only once did this willful girl disobey the dictates of her hus-  
band; but on that occasion there was drama in the air. Two  
strong wills met, there was a clash and then a better under-  
standing between husband and wife.

Proposed increases in telephone rates for Jacksonville and twelve other towns were suspended Friday until November 14 by action of the State Utilities Commission at Springfield. This means that telephone rates in Jacksonville and community will remain the same for the present.

The Illinois telephone company of this city petitioned some time ago for an increase in rates, filing rate schedules with the state commission for inspection.

The local company, as previously announced, is soon to take over the holdings of the Bell organization in this community.

## CELEBRATES HIS BIRTHDAY; NO WORK

Jack Dempsey was 26 Years Old Friday and Laid Off from Work—Received Many Messages

Atlantic City, N. J., June 24.—With the passing of his twenty-sixth birthday Jack Dempsey will resume training tomorrow to put the finishing touches on his condition for the defense of his title against Georges Carpentier a week from Saturday. The champion has reached the peak of his training in a highly satisfactory manner his handlers say and will pull on the gloves only four more times before going into the ring.

Dempsey celebrated his birthday by taking a complete rest as far as routine training is concerned. He slept later than usual abandoned his road work and loafed around his camp until late in the afternoon, reading five hundred or more telegrams extending birthday greetings and wishing him good luck.

Carpentier and his manager, Francois Descamps, were among the first to remember the champion on his birthday.

"Many happy returns of the day," was Carpentier's message. Descamps sent a similar greeting. From his mother in Salt Lake City Dempsey received a message to which he had looked

forward all day. She wished him good luck with all of a mother's affection.

Dempsey jumped on the scales this morning and it was announced that the scales registered 192 pounds. He hopes to scale around the 190 pound mark when he strips for action. Dempsey will gradually taper off in his work with the resumption of training tomorrow. He will work with the gloves Saturday and Sunday. A rest Monday will be followed by the final days of boxing Tuesday and Wednesday. Light exercise will be the program on Thursday. The champion was entertained tonight by newspaper correspondents, vaudeville actors and a jazz band. The party was a surprise in honor of his birthday.

## YALE WINS ANNUAL RACE WITH HARVARD

Struggle One of Most Thrilling and Grimly Fought in History.  
Regatta Course, New London, June 24.—The Yale varsity crew won the annual boat race from Harvard today in one of the most thrilling and grimly fought struggles ever waged over the historic Thames course. Harvard led the way over the first three miles with Yale but a scant half length behind.

Harvard could not throw off her adversary and gradually Yale forced the bow of her shell ahead of the Crimson craft and gained a lead of about a length. Harvard spurred and cut down Yale's lead to half a boat's length, but the men from Old Eli held to their task and swept over the finish line three seconds ahead of Harvard.

Yale, 20 minutes 41 seconds; Harvard, 20 minutes 44 1-5 seconds.  
Tonight Yale adherents are celebrating with exceptional fervor for the defeat of Harvard marked an epoch in Yale rowing history. The blue once again leads in the record of victories, today's triumph placing the Elis ahead of Harvard by a margin of one.

The score stands: Yale, 27 varsity conquests, to Harvard's 26.  
TEX RICKARD HAS LITTLE LABOR TROUBLE  
Jersey City, June 24.—Tex Rickard thought anybody could stencil numbers on the seats in the arena where Carpentier meets Dempsey next week. He had an other thought coming.

He started a gang of men to work today but the other toilers walked out because the stencil crowd was not composed of union painters resident in New Jersey. Rickard called a conference. An agreement was reached and everybody went back to work.

Dr. R. R. Jones of Woodson was a professional caller here Friday.  
Mrs. Richard Lonergan was a Friday shopper in the city from Murrayville.

## CHALLENGER IS DRIVEN TO COVER BY HEAT

Carpentier Finds Weather Too Hot to Work—Leads Letters and is Entertained by Jazz Band, Singers and Dancers.

MANHASSET, N. Y., June 24.—Driven to rest by the heat, Georges Carpentier indulged only in a light row session this morning and permitted himself to be entertained in the afternoon. Trainer Wilson took Georges to the woods and kept him hustling for more than two hours. Carpentier was perspiring freely and whistling as he hurried the last fence on his way home.

The heat became so intense at noon that Trainer Wilson declared an afternoon of idleness for Georges. Then the telephone rang. Willie Lewis, one of the most ardent admirers of Carpentier, said he was coming out with entertainers. Wilson told him to come ahead. The party arrived shortly after 2 o'clock.

There was a jazz band, some dancers and singers. They tuned up and were going at full speed 15 minutes after their arrival. Only members of the camp were in attendance when the entertainment began but within an hour almost a hundred of the challenger's friends had gathered there. The performance continued for more than two hours. Carpentier applauded every number. The visitors were sent away at 5 o'clock and Carpentier asked Trainer Wilson to go to the postoffice for his mail.

The trainer returned with both arms full and after dinner Georges occupied himself with the letters until it was time to retire. There were messages from all parts of the world, mostly from veterans of the World war wishing him good luck on July 2. There were packages containing candy, books and everything imaginable.

with his wife, son, and Mrs. Cobb,  
passed through the city yesterday  
on a long tour expecting to go to

and then work back home thru  
Tennessee and Kentucky. The  
gentleman was reared in Yates  
Center, Kansas, and well knew  
the late Abner Yates who found-  
ed the place. He said there was  
a rivalry between Yates Center  
and another town for the location  
of the county seat and one night  
six enterprising men took the  
court house, such as it was, and  
the records and moved them, pos-  
sibly to Yates Center, claiming  
that it was more nearly the cen-  
ter of the county and there it was  
established.

Dewey Brockhouse went down  
to Champaign for a visit with home  
folks yesterday.

## TWO MEN'S CLUBS TO WORK TOGETHER

F. E. Farrell for Kiwanis Organization Voiced Harmony Spirit At Rotary Luncheon—Mr. Henley Gave Facts About C. of C. Plans—A Musical Program.

Members of the Rotary club at the weekly luncheon at the Pacific hotel yesterday heard greetings extended from the newly organized Kiwanis club and listened to a brief statement about the business program of the Chamber of Commerce. The Dunlap orchestra furnished a musical program which added very largely to the interest of the occasion.

Secy. Kopperl has introduced a new method for securing the attendance records and instead of having roll call each member present signs a card which later becomes a part of the secretary's record. A letter was read from the Aokiya Camp Fire expressing appreciation for the use of the Rotary cottage in Mercedosa bay.

Felix E. Farrell, who is temporary president of the Kiwanis club, told briefly of the first meeting of the organization, with forty members. He expressed the belief that since the Kiwanis and Rotary clubs are organized for like purposes that the relationship between the clubs will be exceedingly friendly, and that they will be of help to each other.

Mr. Henley of the American City bureau had been asked to make a general statement with reference to the budget of the Chamber of Commerce and this general method of handling business. Mr. Henley, who is installation secretary for the bureau, said that conditions here are perfectly normal by comparison with other cities where Chambers of Commerce have been organized. He told something of the method of financing and said that the Chamber of Commerce, just like any other business organization, must be given time and opportunity before it can properly function.

He said that he believed the local organization was fortunate in securing such excellent headquarters so promptly and said further that Mr. Welch, the newly elected secretary, gives every promise of being a very efficient man for the position.

In closing the speaker referred briefly to the American City bureau and the further fact that the relationship between the local Chamber and the bureau is to continue for at least three years. One of the features of the American City bureau work is a summer school in community leadership the bureau has in past years conducted at the University of Wisconsin. Last summer 350 men were in attendance. This year there will be schools of like kind at Wisconsin, Oklahoma, Colorado, Florida and California universities.

## SANATORIUM FACTS GIVEN CONSIDERATION

Conference Held Yesterday Relative to Future of the Institution—Hope to Find Way to Operate It.

Reference was made yesterday to an opinion from Attorney General Brundage indicating that the Morgan county sanatorium property cannot be sold even if authorities wished to take this action. The representative of the Anti-Tuberculosis league trustees of the sanatorium and members of the county board held an extended conference yesterday.

There was an entire agreement of opinion that if at all possible some way should be found of opening at least a part of the hospital and making it possible for a limited number of patients to be cared for there. However, since no funds are provided by taxation and there is a deficiency in the general fund, the proper way for financing the project has not yet been determined upon.

However, persons who have this problem in hand are hopeful that they will yet find a way out of the present very difficult situation. Paragraphs from the opinion of the attorney general referred to are as follows:

"You inquire whether the board of commissioners and said board of directors have the right to make a sale of said property, unless authorized by a vote of the people.

"In reply I will say, there is no provision in the act under which the vote was held to levy such tax for a county tuberculosis sanatorium, that authorizes a sale of property purchased for the purpose of carrying said act into effect, nor is there any provision in said act that authorizes the discontinuing of such tax levy after it has once been voted.

"It would seem that after a county has voted under the Act of 1915 to levy a tax for the establishment of a county tuberculosis sanatorium, that such tax becomes as much a part of the tax to be levied for county purposes as any other tax levied for county purposes. The fact that the county board may not be able in view of the limitations of said Section 121 of the revenue act to levy the full rate authorized to be levied for the 'tuberculosis sanatorium fund' under the Act of 1915, still it would seem to be the duty of the county board to levy so much of a tax as is authorized by paragraphs 146, chapter 34, Hurd's Statutes, Section 2 of said Act of 1915, as may be necessary for said purpose as will come within the rate that may be levied for county purposes under said Section 121 of the revenue act. Then, too, the General Assembly may at any time so increase the rate of taxes that may be levied for county purposes under said Section 121 as would admit the levying of a tax for the maintenance of a tuberculosis sanatorium, without making it necessary to submit to a vote the question of an excess levy.

"Clause 2 of Section 24 of said Chapter 34, confers upon county boards the general power to sell and convey real estate owned by the county; but whether such general power applies to property purchases in pursuance of the Act of 1915, for the purpose of a tuberculosis sanatorium, is a matter to be determined by the courts."

The Woodson Band will give a concert and ice cream supper in the school yard at Woodson on Tuesday evening June 28.

The trip was enjoyed by each member of the party. On August 19 the entire company will go to Camp Lincoln at Springfield, remaining until September 3.

According to an order received Friday, the local National Guard unit will soon become a howitzer company instead of a rifle company. This is a part of sweeping changes which are being made in the National Guard system in this state.
